MAYSVILLE, KY., TUESDAY, SEPTEMBER 6, 1897.

SIXTH YEAR.

MAYSVILLE, KY., TUESDAY, SEPTEMBER 6, 1897.

ONE CENT.

Eyesight

Is of such great value that one ought to take more than ordinary precautions to guard against every possible trouble.

If you have even a remote suspicion that there is any trouble with your eyes it will be for your own best interests to have your vision tested and trouble, if any, removed.

Very simple troubles may develop serious results if not properly treated.

Ordinary failing eyesight receives our most careful attention, both as to glasses and frames.

It's just as important to have the right frame as the right glass, and from our large stock we can give you the correct thing in either Gold, Silver or Steel.

We make no charge for examinations, and if you are a case requiring the services of an oculist we will frankly tell you so.

Miss Tiddledwinks, in company with a male companion, was found "gambling on the green" Sunday evening, and yesterday Judge Wadsworth gave the lady just 10 minutes to get off the grass. She lit out for Lewis county.

Yesterday morning Miss Ella Wallace, one of the efficient teachers of the Fifth Ward School, fell down several steps at the building, spraining her ankle in a serious manner. She was removed to her home on East Fifth street in a hack. It was a very unfortunate accident, occurring on the first day of school, and it will cause a great loss to that school.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, get your urine aside for twenty-four hours; a sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kimler's Swamp Root, the great kidney and bladder remedy, is soon realized. If you need a medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention THE PUBLIC LEDGER and send your address to Dr. Kimler & Co., Birmingham, N.Y.

Total, \$1,753 34

City Attorney Chamberlain sent a note, saying his absence was caused by sickness.

Mr. Dressel protested against the treat made accorded the men who had done work for the city in the Sixth Ward, their bills having been withheld for two months past, there being a balance due of \$160 15.

After a few hotshots between Mr. Dressel and Mr. Crowell, Chairman of the Internal Improvement Committee, the bill was ordered paid.

Superintendent Lewis of the Chesapeake and Ohio Railway appeared before Council and said it was the Company's intention to erect safety gates at Poplar and Lexington streets, and asked permission to erect a tower midway between those streets for the purpose of operating said gates.

The permission was granted without dissent.

Mr. John Sapp stated that the Water Company was ready to lay the main on West Third street just as soon as the city was ready to dig and refill the trench.

The distance is over 3,000 feet. The work will begin as soon as the Chief of Police can furnish a crop of prisoners to do it.

The matter of electric bells at railway crossings in the Fifth Ward was continued.

President Cox read a restraining order issued by the Circuit Court preventing the city from prosecuting the C. and O. Railway for violating the ordinance relating to safety-gates at railway crossings at Commerce, Poplar, Lexington and Wood streets.

On motion of Mr. Stallcup the Railroad and Turpike Committee was authorized to take necessary steps to defend the suit.

Mr. John H. Hall submitted a proposition to put an asphalt "blanket" on Market street between Second and Third, the city to grade the street, and the asphalt to be applied at a cost of \$1 per square yard; or he will cover any other square that the Council may designate, on the same terms, and the Street will guarantee to keep said street in complete repair for five years.

Mr. Stallcup said the time had come for a betterment of our street system, and he suggested that the Internal Improvement Committee begin at the C. and O. Depot and come Eastward, to see if the property-owners can be induced to join in the movement.

Mr. Newell moved that the Committee select one square, ascertain the cost and if the property-owners are willing to comply with the law, and report at the next meeting of Council.

The President read the following pointed communication:

MAYSVILLE, KY., Sept 6th, 1897.

To the Honorable Board of Council:

Your petitioners respectfully report that we had good gutter in front of our property. For some reason it was torn up and raised. The new gutter is a source of great annoyance, as it permits a flow

of water into our cellars every time we have a hard rain, causing damage to property and goods. We respectfully pray for immediate relief.

E. A. ROBINSON & Co., HARRY TAYLOR, McCLANAHAN & SHEA, D. HUNT & SON, H. C. BARLEY & Co., BROWNING & Co., NESBITT & Co., FRANK OWENS Bldg. Co.

The matter was referred to the Internal Improvement Committee with directions to act, and Mr. Frost's motion to employ Engineer Peiham to lay the gutter off was lost.

The Fire Committee was directed to procure necessary fireplugs to be placed along the new main on West Third street.

Mrs. Hannah A. Curtis petitioned for a grant in front of her Fourth street property, which was referred to the Internal Improvement Committee.

Permits were granted as follows:

Mrs. Hannah A. Curtis, frame kitchen. S. B. Clayton & Co., brick boiler-house.

Dr. Smith stated that a sewer was being built in the Sixth Ward which would empty into the river just above the Water-works.

It was stated that nothing impure was to be run through the sewer, and it was decided to let it go at that.

Dr. Smith also called attention to the sewer which passes through the jail property and Grave alley. The matter was referred to the Internal Improvement Committee and the County Judge.

Mr. Eitel asked for repairs to the crossing at Fourth and Limestone, and the Internal Improvement Committee was ordered to attend to it.

On motion of Mr. Frost the First Presbyterian Church was allowed the cost of a brick gutter around their Church building.

Yess—Blatterman, Crowell, Dersch, Dressel, Eitel, Frost, Heiser, Hutchison, Newell, Pearce, Smith—11.

Nays—Frost—1.

The Internal Improvement Committee was directed to clean Morgan's alley.

Mr. Stallcup moved to allow the Christian Church the price of a brick gutter.

Yess—Blatterman, Crowell, Dersch, Dressel, Eitel, Heiser, Hutchison, Newell, Pearce, Smith, Stallcup—11.

Nays—Frost—1.

An order was drawn for \$225 21 to pay for hose ordered some time since.

Dr. Smith urged that some definite action be taken in regard to the sewer in the Sixth Ward which will run drainage into the river just above the Water-works.

Mr. Charles D. Pearce, President of the Water Company, stated that it was a serious question, involving the health of every citizen, and the matter was of prime importance.

Council adjourned without further action.

KICKERS' CORNER

If any one at any time for any reason has any cause to "kick" in any way at anything of any kind, here's the place to say his say. The door is open—walk right in and help yourself, free gratis and for nothing—but don't make "kicks" too long—let's be short, quick fellows that count—and cut.

—The name of the kicker must accompany the kick, or it'll be kicked into the waste-basket.

The Health Officer is kicking about the big sewer of the Sixth Ward that is to empty into the river just above the Water-works. There is talk of "injuncting" the city in its mad career. The people don't want to drink that kind of water.

THE LEDGER'S "Boss Kicker" today comes forward with an exhibit of profligate wastefulness that ought to make every taxpayer kick a big big kick.

Here is what the mud roads of Maysville have cost each year for eleven years past:

1886.....\$9,397 41
1887.....6,284 17
1888.....6,109 78
1889.....5,128 85
1890.....5,449 75
1891.....6,258 12
1892.....6,960 73
1893.....21,673 36
1894.....9,000 35
1895.....6,831 16
1896.....4,573 30

\$87,367 71

*Less \$15,000 for Water Main Sixth Ward.....15,000 00

Net cost streets, 11 years \$72,367 71

When these figures were shown to one large taxpayer he involuntarily exclaimed:

"Golly, that's a whole lot of money!"

Yes, gentlemen, it is "a whole lot of money," and the devil of it is that you are just where you started from; you haven't any better streets than you had eleven years ago; and they are just as good now as they will be when you have spent \$10,000,000 on them—providing you keep on in the old way.

Don't you think it the part of wisdom to make asphalt streets and be done with this "endless chain" of expense?

MAYSVILLE WEATHER.

What We May Expect For the Next Twenty-four Hours.

THE LEDGER'S WEATHER SIGNALS.

White stormer—Fair; Blue—Rain or snow; With blue above—will warmer; Snow; If black beneath—cold—will be; Unless black's shown—no change we'll see.

The above forecasts are made for a period of thirty-six hours, ending at 4 o'clock to-morrow evening.

Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "notices" free any more than a merchant can lose over his counter free gifts of dry goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

A FEW WORDS ABOUT OUR SHOES!

When we concluded to handle Men's and Youth's Shoes quality was the first consideration in our purchase. As ranks in merit all our various lines, so will the merit of our Shoes rank, too. Messrs. Smith & Stoughton, who made our Shoes for us, say to us, "Your \$2 and \$2 50 Men's Shoes excel all others at the price." They further say, "We made you a Shoe to retail at \$3 that you can guarantee to wear equal to any \$4 Shoe made in the world. We warrant every pair of them. The above-mentioned lines

KENTUCKY REPUBLICAN PLATFORM.

Adopted at Louisville, Aug. 10th, 1897.

Hon. AUGUSTUS E. WILLSON, one of Kentucky's most distinguished Republicans, has "bolted" the local ticket in Louisville. He says:

"Party loyalty has no right to force any upright citizen to vote for an unprincipled and dangerous man simply because his name is under his party's designation."

There are some people in this neck of the woods who wouldn't have agreed with Mr. WILLSON a year or two ago.

FAIR NOTES.

Some of the Attractions The Maysville Fair Offers to Patrons.

The grounds are being cleaned, the buildings got ready, and everything will be in ship-shape for the opening day, Tuesday, September 21st, which is the preliminary arranging day as the shows and Fair proper begin Wednesday morning at 10 a. m. Exhibitors please be prompt in entering their goods this day (Tuesday) with Superintendent of Floral Hall.

Mr. Harry C. Curran, Superintendent of the Floral Hall, will be on the grounds Tuesday morning at 8:30 for the purpose of receiving goods for the Floral Hall. Patrons will bear in mind and be prompt that everything may be in order and no delay occasioned.

Do not forget the delightful attractions already booked for Mayville's Fair—a complete Wild West show, a balloon ascension each day, and double balloon races, a high wire walker, and a hippodrome show, to say nothing of the hippodrome, the cane racks, the merry-go-round, the peanuts, and the red lemonade, and other accessories found only in first-class exhibitions. Always keep in mind the date, September 22d to 30th.

Have you seen the catalogue? It is a capital book with high-class printing, but it contains a more liberal showing of premiums which it will pay you as a housekeeper or owner to examine. Write to Secretary William H. Fremont for one.

The chances are flattering for a visit from our neighboring City Bands. They have been invited to be guests of the Company, and it is hoped that nothing will interfere to have them accept.

The "Merchant's Bazaar" idea is a popular scheme and our Floral Hall will be a miniature exposition. Our local merchants take pride in doing whatever they do in the best manner, and the exhibit of boudoirs, parlor, dining-room, kitchen, china closet and bath will be a full complete, elegant and perfect in appointment. The Floral display will have some sharp competitors this year, and the domestic side will show more kinds of bread, cakes, jellies, pickles and fruits than very likely ever were assembled in Floral Hall.

The Kimball Co.'s exhibit promises a great deal of fine music, a pianist having been engaged to make sweet the air with choicest sounds.

A fact which cannot be too often emphasized relates to the admission fee. Remember town people and friends outside that the nominal cost of 25 cents admits you absolutely, no extra charge for grand-stand seats. Now we hope this emphatic statement will dispense any doubts, and that any past experience to the contrary may not be a judgment of the future.

The question, "What do you mean by an old-time fair?" has been asked so often as to prompt a public reply. In the antebellum days our citizens lived far more usefully than now. They seemed to believe in the principle of fraternity, hospitality. To these ends they had ingatherings, harvest homes and country fairs, which were nothing more than big picnics prolonged or barbecues long drawn out. To these annual events the whole neighborhood would turn out. "Pap and Mother with Maids, Ann, Bill and Sam" would come in the old spring wagon, having a bountiful filled dinner basket, expecting to see neighbor Leechman or friend Jenkins at the Fair and have them take dinner with us.

Now, in a nutshell, this is what is meant, only in addition to the happiness of commingling with acquaintances you are privileged to enjoy up-to-date attractions, these having been contracted for by the present Manager of our Fair.

A Wild West show, a balloon ascension, a high wire walker, a higher tower diver, a hippodrome show, a vaudeville entertainment, splendid music—these will begin on Wednesday and last till Saturday, each afternoon being set apart for them, all for one price of admission, 25 cents, no extra charge for grand stand or entertainment.

Remember the dates, September 22d to 30th.

Sarah Stokes, mother of Nelson Powers, will now draw a pension of \$12 per month. Major John Walsh was her attorney. She has been in the Almshouse for several years.

Mr. Frank A. Calhoun has accepted a position as stenographer with the Sun Manufacturing Company of Greenfield, O., one of the largest woodware manufacturing houses in the country.

Miss Mamie Young left yesterday for Lexington to attend Kentucky State College. Miss Young was one of the fortunate ones who were awarded a scholarship last year for general excellence in her studies at the Mayville High School.

Queen Victoria, it is said, has traveled more miles than any other European ruler. Since 1842, the year she first entered a railway carriage, according to an English authority, her record is 2,000,000 miles. The Prince of Wales has about 1,500,000 miles to his credit.

The LEDGER today places at the head of its columns the name of "Squire William H. Hook, candidate for reelection as Magistrate for the Eighth District. Mr. Hook has a strong hold on his constituency, and his reelection will be sure if his services are recognized.

Rev. S. K. Ramey, ex-President Elder of Middleboro District, Kentucky Conference, M. E. Church, whose trial for alleged malfeasance in office came up in London yesterday, has informed the Investigating Committee that he has left the Methodist Church and joined some other. The investigation, however, will proceed. Rev. Ramey is well known in this city.

Sunday night as Messrs. Ernest Shawhan, Charles McCarthy and John Comer were returning to town on their wheels from Lewisburg, Mr. McCarthy's wheel became unmanageable, and ran into Mr. Shawhan, tearing his wheel all out of shape, while all the young men received several ugly scratches.

KENTUCKY NEWS.

The Latest News From All Parts of the Commonwealth.

AT LOUISVILLE.

The Labor Day Horse Race Was Hotly Contested at Fountain Ferry Park.

LOUISVILLE, Ky., Sept. 7.—Labor day races at Fountain Ferry were a great success as the events were hotly contested and two amateur world records were by the board.

The principal contest was a pursuit team race, preconcert for five miles. The entries were made up of two teams—Sutton-Davisworth and Home-Dupree. It pleased the spectators wonderfully.

Sutton and Davisworth gamely staid steadily on their rivals, who started from the opposite in the track, until at the end of four miles Sutton caught them at the tape. Time for the four miles, ten minutes.

Harry M. Sidwell, of Covington, Ky., lowered the amateur record for two-thirds of a mile, flying start, paced by Sammie T. Scales, 1:14.

H. W. Milderford, of Louisville, broke the amateur start record for one mile, paced by Sammie T. Scales, 2:45, against 2:42.

Elm Tree Dying.

VERMILION, Ky., Sept. 7.—A strange phenomenon is reported from the country southwest of here in Woodford county. Every elm tree within a radius of many miles has died down to the roots this summer. Old trees, some of them two or three feet in diameter, that have stood for 100 years, and young bushes and saplings have all been perished. Other varieties of trees in the same territory are green and vigorous, the elms alone being affected.

Langstaff Won the Road Race.

COVINGTON, Ky., Sept. 7.—After bidding the Kentucky bicycle championship for two years, Cliff C. Nadand, the long-distance rider, has won the title. He defeated Leo C. Langstaff, one of the best, as well as young riders in this section of the country.

Mr. Langstaff won the honor of being styled champion of Kentucky riders by ending first in Monday's 100-mile road race from Lexington to Covington.

Razor-Back Hog Causes an Encounter.

BRIDGMAN, Ky., Sept. 7.—Two Rockcastle county farmers engaged in a deadly fight at a recent date over a razor-back hog. James Huff, about 30 years of age, filled the aboriginal contest with the honor of being styled champion of Kentucky riders by ending first in Monday's 100-mile road race from Lexington to Covington.

Dr. Baillache Believes the Outbreak to Be Design of Brakelike Fever—Much Difficulty in Finding Inspectors for Dressed Meats in the Live Stock Centers.

WASHINGTON, Sept. 7.—The Marine hospital service is investigating the fever at Ocean Springs, Miss., and the information so far at hand inclines them to the belief that the disease is not yellow fever, though conclusive information is not yet at hand. Surgeon General Wyman is absent from the city. He has been attending the British Medical association at Montreal and is now at Vineyard Haven on his way back. During his absence Surgeon Baillache is in charge. The cases at Ocean Springs were first called to the attention of Baillache last Friday in a telegram from Assistant Surgeon Washin, who is stationed at Mobile, asking permission to accompany the state board of health to Ocean Springs to investigate the fever. Dr. Baillache was immediately proceeded, Saturday morning he telegraphed as follows:

"Of five six hundred cases here have been seen; an epidemic infection, spread by carriage; mostly white; non-communicable; disproportionate in pulse; prostration; and in some cases death on adult of 60, said to be a typical case of fever. Matter under investigation. Doctors Oliphant (president Louisiana state board of health); Harrison, Saunders and others will be here later."

A copy of this telegram was transmitted to Surgeon General Wyman at Vineyard Haven, and he immediately required Dr. John Guitierrez, professor of the University of Pennsylvania, to proceed to Ocean Springs. Dr. Guitierrez is a physician in the marine hospital service and is the acknowledged authority on fevers in this country. Dr. Baillache also wired Dr. Washin to inquire into the results of the autopsy and consultation, to give the number of the inhabitants of Ocean Springs and the number of cases of fever. Dr. Washin replied that the population of Ocean Springs, which is a summer resort on the Gulf coast near Biloxi, was about 1,500 in winter and 4,000 in summer. He also reported the existence of past history of malaria, a condition of the blood in winter, and present in yellow fever cases. No further report has been received although one is expected Monday.

Dr. Baillache says that Dr. Washin is making a bacteriological investigation to determine the existence of yellow fever germs. Dr. Baillache believes the disease, so far as its information goes, is dengue or brakelike fever. In support of this he points to the fact that the fever is not epidemic, not epidemic, and that the fatalities have been few whereas yellow fever is a majority of cases. This lack of fatalities he considers the strongest evidence that the disease is not yellow fever. The existence of the malarial condition of the blood is another strong evidence against the yellow fever theory. About ten days ago, however, the state board of health of Mississippi investigated the fever and pronounced it dengue. If it should, however, prove to be yellow fever Dr. Baillache says the intensity of the season will materially aid the authorities in keeping it confined to the locality in which it has broken out, and he gives assurances that there will be no wide spread epidemic of the dreaded scourge.

The latest information received by Dr. Baillache, acting surgeon-general of the Marine hospital service, is to the effect that the disease reported at Ocean Springs, Miss., is yellow fever. This information comes from Assistant Surgeon Washin, whose regular station is Mobile, but who was granted permission to go to Ocean Springs in company with other physicians to investigate the disease. The conclusions reached by Messrs. Harrison and Hunter, of the Mississippi state board of health, in their report to Dr. McLaughlin.

WASHINGTON, Sept. 7.—The agricultural department is finding difficulty in supplying the demand from the live stock centers for inspectors required to examine the dressed meats for foreign shipment. There has recently been a very pronounced improvement in the European market for American meats, which the live stock centers are anxious to take advantage of. The department is temporarily supplied by permitting re-employment of persons who have heretofore been engaged as inspectors.

WASHINGTON, Sept. 7.—The Evening Star Monday says:

It is stated that Mr. S. N. D. North, of Boston, has been selected as the superintendent of the next census, and that his appointment will be made as soon as the necessary legislation can be passed. The present is said to be the best time for the census, and the bureau of census, and is likely to exercise some views on that subject in his next message.

A Bull Drove a Train.

POINTSTOWN, Md., Sept. 7.—Train No. 5, on the Washburn railroad, west bound, struck a bull a quarter of a mile west of this place Sunday night. Ten cars were derailed. The passengers in the rear cars were thrown to the floors by the shock, but none of them were hurt. An unbroken train was instantly killed. Engineer John Egan was fatally hurt, being injured internally and badly scalded. Fireman Green was badly scalded on the back and legs.

YELLOW FEVER.

The Marine Hospital Service Investigating the Infection.

A Disease Reported to Be Endemic, Not Epidemic, at Ocean Springs.

Dr. Baillache Believes the Outbreak to Be Design of Brakelike Fever—Much Difficulty in Finding Inspectors for Dressed Meats in the Live Stock Centers.

WASHINGTON, Sept. 7.—The Marine hospital service is investigating the fever at Ocean Springs, Miss., and the information so far at hand inclines them to the belief that the disease is not yellow fever, though conclusive information is not yet at hand. Surgeon General Wyman is absent from the city. He has been attending the British Medical association at Montreal and is now at Vineyard Haven on his way back. During his absence Surgeon Baillache is in charge. The cases at Ocean Springs were first called to the attention of Baillache last Friday in a telegram from Assistant Surgeon Washin, who is stationed at Mobile, asking permission to accompany the state board of health to Ocean Springs to investigate the fever. Dr. Baillache was immediately proceeded, Saturday morning he telegraphed as follows:

"Of five six hundred cases here have been seen; an epidemic infection, spread by carriage; mostly white; non-communicable; disproportionate in pulse; prostration; and in some cases death on adult of 60, said to be a typical case of fever. Matter under investigation. Doctors Oliphant (president Louisiana state board of health); Harrison, Saunders and others will be here later."

A copy of this telegram was transmitted to Surgeon General Wyman at Vineyard Haven, and he immediately required Dr. John Guitierrez, professor of the University of Pennsylvania, to proceed to Ocean Springs. Dr. Guitierrez is a physician in the marine hospital service and is the acknowledged authority on fevers in this country. Dr. Baillache also wired Dr. Washin to inquire into the results of the autopsy and consultation, to give the number of the inhabitants of Ocean Springs and the number of cases of fever. Dr. Washin replied that the population of Ocean Springs, which is a summer resort on the Gulf coast near Biloxi, was about 1,500 in winter and 4,000 in summer. He also reported the existence of past history of malaria, a condition of the blood in winter, and present in yellow fever cases. No further report has been received although one is expected Monday.

Dr. Baillache says that Dr. Washin is making a bacteriological investigation to determine the existence of yellow fever germs. Dr. Baillache believes the disease, so far as its information goes, is dengue or brakelike fever. LABOR DAY

Attended By Many Accidents at
Zanesville, O.

An Electric Train Gets Beyond Con-
trol and Strikes Another Train.

Two Fatally Injured and Several Others
Seriously—An Electric Train
Jumps the Track and Two Women
Thrown Under the Wheels.

ZANESVILLE, O., Sept. 7.—Labor day was attended by many accidents and several fatalities here. A train of six electric cars got beyond control and dashed down the "Y" bridge incline and side-wiped an approaching train. Two people were fatally injured and several others seriously. Mrs. J. B. Alexander, wife of a traveling salesman, was thrown between the cars and terribly crushed. She is at the hospital and can not live. Just McGrath, district organizer of the federation of labor, was probably fatally injured. The others injured are:

Miss Holmes, of Newark; Mr. Yoder, of Canton; Miss Bathum, of Evansville.

An hour later a car jumped the track and Mrs. Charles Rodgers, of Zanesville, and Miss Ivy Brannan, of Newark, were thrown under the wheels. Physicians say they can not recover.

Mr. and Mrs. Beatty, who show people, were also badly injured. While attempting to alight from a freight train, William O. Horne, who was leaving the city for a hunting trip, was thrown under the wheels and badly injured. With superhuman pluck he walked a distance of two miles and died shortly after leaving the city. There were 15,000 visitors in the city.

A MONSTER

Taken From the Officers and Lynched Near
Friends Mission, Va.

RALEIGH, N. C., Sept. 7.—A special from Mr. A. H. C. to the News and Observer says that Sunday afternoon near Friends Mission, Va., Miss Sadie Cook, a young white girl, aged about 17, was being escorted by Henry Wall, white, aged about 21, after accomplishing his purpose. Wall dealt his victim several blows on the head with a box, rendering her unconscious and then placing her head on a log crushed it with a stone, which was left lying bloody nearby. Wall then cut the girl's throat, severing the windpipe and dragged the body some 50 yards up a ravine, threw it in a branch, where it was afterwards found. He went to a spring and was found washing the stains from his clothing.

The excitement became so intense that Monday afternoon Wall was taken from the officers and lynched near the scene of the crime.

NEW ORLEANS

To Enforce a Right Quarantine Against
Bilots and Ocean Springs, Miss.

NEW ORLEANS, La., Sept. 7.—The state board of health has decided to enforce a right quarantine against Bilots and Ocean Springs. Quarantine will also be enforced against the other waiting places on the coast. President Philanthrop returns and more light is obtained on the situation. Guards are to be put on the stations, all baggage is to be fumigated and every precaution is to be taken to keep the disease from spreading. Bilots and Ocean Springs are yellow fever hot spots. The houses in Orleans in the past two days are to be thoroughly fumigated.

Prominent Yellow Fever.

JACKSON, Miss., Sept. 7.—Gov. McLaughlin has received the following telegram from the two members of the state board of health, who went to Ocean Springs, Miss., to investigate the yellow fever scare: "After a most thorough investigation in every conceivable light, the board has the opinion of representatives of Louisiana, Alabama and Mississippi state boards of health and the Marine hospital service that the fever now prevailing in Ocean Springs is yellow fever. (Signed) H. H. Harrison, J. P. Hunter."

A \$100,000 Fire in Philadelphia.

PHILADELPHIA, Sept. 7.—Shortly after 4 o'clock Monday afternoon fire broke out in the bank and warehouse factory of John N. Rowe Sons Co., 18 N. Water street, and in a short time extended to several adjoining buildings on Water street and several fronting on Delaware avenue. Before the flames were got under control an estimated damage of over \$100,000 had resulted. All of which is fairly covered by insurance. The origin is unknown.

Shot and Killed by His Son.

BALTIMORE, Sept. 7.—Edward B. Bishop, aged 70, a member of the Baltimore city council, was shot and killed by his son, Edward A. Bishop, at his home, 2029 Lloyd street, Monday afternoon. The parents of the youthful patriot had been away for some weeks past, and Monday afternoon the elder Bishop came to the home and attempted to force his entrance from the rear. He was shot by his son as he broke through the kitchen door.

Montgomery Quarantine Against Ocean Springs.

MONTGOMERY, Ala., Sept. 7.—In consequence of yellow fever having been officially declared at Ocean Springs, Ala., the Montgomery authorities have established a rigid quarantine against these places.

Four Boys Badly Injured.

CHICAGO, Sept. 7.—Four boys, whose ages range from 10 to 14 years, were severely injured Monday afternoon by the explosion of a dynamite cartridge which they found while playing.

Ex-Confederate Flagged Dead.

DIPHTHERIA!

To Prevent the Disease From Becoming Contagious.

CIRCULAR FROM STATE BOARD.

To the Health Officials, Physicians and People of Kentucky: The unusual prevalence of diphtheria in many sections of the state makes it important that the attention of our health officials and people should be called to the best known methods for preventing the spread of the disease.

Diphtheria is both contagious and infectious, attacking persons of all ages, but affecting children much more frequently than adults. It may be communicated from the sick to the well directly or by means of persons, clothing, toys, pet animals or other things infected by the sick room, and especially by cups and other articles which pass from mouth to mouth.

In a sense, it is a "ditch disease," sometimes coming to originate spontaneously in the presence of bad sanitary surroundings, and certainly spreading more rapidly and being most fatal in such localities.

Diphtheria is a preventable disease. Proper preventive measures are almost invariably followed by the limitation of the disease to the first case or cases. When it gets away from the primary cases and makes its escape upon the community somebody is to blame. The sooner we accept this as a salutary maxim the sooner we shall begin to do our duties as individuals and as communities.

When it is known or suspected that a person has diphtheria he should immediately be separated from the rest of the family and put into a sunny, well-ventilated and plainly furnished room, preferably on the upper floor, and as dis-

sected as possible from other rooms, especially the living and sleeping rooms of children. No other person besides the nurse and necessary attendants should be permitted to enter the room, and they should take every precaution not to carry the infection to others.

The State Bacteriologist, Dr. J. E. Cahn, at the Hospital College of Medicine, Louisville, will make prompt examination and report of any suspected material sent to him, thus setting at rest any doubts as to diagnosis. Upon application he will send mailing cases, containing sterilized tubes and mops, for collecting and transmitting cultures from any suspected case. This work will be done without charge for any health officer or physician in the state. The Board recommends the use of anti-toxin in every case as soon as it is seen, without waiting for the result of the bacteriological examination.

At the same time the Health Officer of a town or county should be notified, and he should co-operate with the physician and family to keep the disease from spreading. A blue flag or a card with diphtheria on it in large, plain letters should be placed in a conspicuous position on the house. No child or person having the care of children should be permitted to enter the house.

The discharge from the throat, mouth and nose is exceedingly poisonous and should be received on soft cloths and immediately burned, or immersed in a solution of chloride of lime, six ounces to the gallon of water. The bed and body linen, immediately upon removal, should be boiled for half an hour or immersed in the chloride of lime solution for twenty-four hours. In no case should such clothing go into the family washing.

No person from a house where there is diphtheria should go into public assemblies, as Churches, fairs or concerts, and especially schools.

Persons who have had diphtheria should not mingle with the public for some time after the last trace of the disease has left the throat and nose, and only after all their clothing has been thoroughly washed or disinfected. No child from a house where the disease has prevailed should be permitted to enter school except upon the certificate of a physician that it is safe to do so.

In case of death the body should be wrapped in a sheet saturated with the chloride of lime or of boracic acid of mercury solution, and put in a tight coffin. The funeral should be strictly private, and in no case should children, or those having the care of children, be permitted to attend.

After death or complete recovery the room should be disinfected, under the supervision of the health officer or a competent physician. First, mattresses, comforts and other like things badly soiled should be burned. Such clothing and bedding as can be washed should be boiled, or placed in the chloride solution as above directed. To disinfect the room proceed as follows: Arrange the contents of the room so as to expose the greatest amount of surface to the action of the disinfectant. Close the apartments as completely as possible, stopping all openings as chimney flues, keyholes, etc., through which the gas might escape. Thoroughly dampen the floor and bedding. For a room ten feet square use three pounds of sulphur moistened with alcohol, in an iron pan, placed in a tub containing a few inches of water, to avoid danger from fire. When certain the sulphur is burning well leave the room, close the door and allow the room to remain tightly closed for ten or twelve hours. Afterward the room should be thoroughly ventilated for several hours, and then the floor and ledges over windows and doors and other places likely to

retain dust should be washed with the chloride solution and then with soap and water. The house and premises generally should be put in the cleanest and best condition possible.

To be effectual the precautions here suggested should be rigidly observed. Imperfect isolation and disinfection are worse than useless, giving rise only to a false sense of security.

County and municipal Boards of Health have full authority under our laws to enforce these rules, and will fall short of their duty if they fail to do so.

Copies of this circular and of similar ones in regard to the prevention of scarlet fever, typhoid fever and consumption, for free distribution, may be had upon application to the Board at Bowling Green, Ky.

By order of the State Board of Health of Kentucky.
